NATURAL FIBER FILTERS

CUP SIZE FILTER WITH STICK

Open Style Brewing allows you to pour the hot water directly over the tea leaves. By holding the CUP SIZE FILTER open with the Filter Stick, tea leaves are free to fully unfold. Open Style brewing is practical and aesthetically appealing.

Due to their natural fibers (abaca pulp and cellulose), these tea filters are biodegradable and have a pleated bottom which expands as the tea leaves unfold. Their unique true-flavor filtering qualities and the absence of glue or any other binding agent add to their eco-friendly character.

The **finum**® Filter Stick, a practical tea filter holder, is suitable for nearly all filters and cup / mug dimensions. The stick is reusable.

Pierce the filter on the Filter Stick approx. 1 cm (3/8") from the opening.

Place the Filter Stick on the rim of the cup / mug. Add the desired amount of tea.

Pour hot water into the filter.

Wait for the tea to brew.

Discard the tea-leaves and filter. Keep the Filter Stick for later use.

NATURAL FIBER FILTERS

ABOUT FINUM

finum® is the brand of the German filter manufacturer **Riensch & Held GmbH & Co. KG**. The production company was founded in 1845 as an international trading company.

The filter products manufactured in Hamburg are offered to consumers from all over the world as both OEM components and private label products. Innovation and sustainability are the main characteristics of our products as well as of our certified facility with its modern manufacturing technology.

Accessories for tea, coffee & spices.

With its accessories **finum®** represents design, functionality and sustainability. We are committed to the conscious preparation of tea, coffee and spices - for more taste and a careful use of our natural resources.

Discover our range of products:

Renowned for its flavor-enhancing products, **finum®** holds the leading role in the manufacturing of biodegradable tea filters. The brand also offers a series of unique brewers for tea and coffee, teaming patented German filter technology with elegant glassware, as well as award winning coffee and spice grinders.

With the tea accessories by **finum®** you can enjoy the valuable ingredients and the fine aroma of loose leaf tea.

Coffee beans and spices are gently and freshly ground with **finum®** manual grinders. Experience the pleasure and easiness of brewing your coffee by hand.

The **finum®** slogan says it all:
"...do yourself a flavor"

Kind regards from Hamburg,

Your Christian Justus
